Backend: Node.js, Express.js, REST APIs, MongoDB, MySQL

Tools & Libraries: Git/GitHub, Vite, React Router, React Hook Form, Recharts, React DnD, i18next, Axios, Lottie; Agile development

PROFESSIONAL EXPERIENCE

Software Engineer | ATS (Automatic Technology Solutions)

Jun 2025 - Sep 2026

- Developed web products spanning e-commerce, employee attendance, industrial engineering, and healthcare.
- Built public-facing websites, CRM dashboards, and admin CMS interfaces, including Amaar, TimePro, FERUMS, and ProfMedMax.
- Implemented multilingual interfaces, API integrations, responsive layouts, and SEO features across client projects.

Frontend Developer | Soft Service

Full-time | Mar 2023 - Oct 2024

- Developed responsive websites for Master-Kebab, Navoi tourism, Hotel Kamilla, and EFOOD (Euro Food Trade).
- Implemented responsive interfaces and user-facing features to improve usability and support each client’s online presence.

Frontend Developer | Alhadid IT

Part-time | Feb 2022 - Feb 2023

- Mentored students in frontend programming, guiding them through practical development techniques and best practices.
- Led frontend development for two startup projects, including a learning center management system.

Frontend Developer | IT TOWER

Part-time | Mar 2021 - Feb 2022

- Built a school website presenting subjects, teachers, events, and school life.
- Developed an ethnosports competition website with an administrative control panel.

EDUCATION

Bachelor’s Degree in Computer Software Engineering | Sep 2019 - Jun 2023

Tashkent University of Information Technologies (TUIT), Tashkent, Uzbekistan

Independent Study - Full-Stack Web Development | Jan 2019 - Present

Completed online courses and built personal applications using React, Node.js, Express.js, MongoDB, and MySQL.

PROJECTS

AMAAR - Marketplace, Seller Portal & CRM

amaar.uz | seller.amaar.uz

- Contributed to an e-commerce platform comprising a customer-facing marketplace, a seller portal, and an internal CRM.
- Developed customer interfaces for product discovery, favorites, and shopping cart workflows, along with seller registration and onboarding pages.
- Built web interfaces supporting customer shopping, seller access, and internal business operations.

TimePro - FaceID Attendance CRM

React, TypeScript, Vite, Tailwind CSS, MUI, Radix UI, React Router, React Hook Form, Recharts, React DnD, i18next

faceid.timepro.uz

- Developed the frontend of a facial recognition attendance platform, including an administrative CRM and a multilingual marketing website.
- Built authenticated admin workflows for employees, devices, branches, shifts, workdays, absences, breaks, and subscription plans. Implemented attendance analytics with Recharts and drag-and-drop interactions with React DnD.
- Created a responsive marketing website in English, Russian, Uzbek, and Malay, with sections for features, pricing, security, and Telegram notifications. Optimized the build and asset delivery using Vite and gzip compression.

FERUMS - Industrial Engineering Website & Admin CMS

Next.js (App Router), TypeScript, Tailwind CSS

ferums.com

- Built a bilingual industrial engineering website with statically generated pages for products, projects, industries, services, careers, news, and sustainability.
- Implemented English and Russian locale routing and technical SEO, including page metadata, canonical URLs, hreflang tags, social sharing cards, JSON-LD structured data, sitemap.xml, and robots.txt.
- Developed a configuration-driven CMS with resource lists, forms, settings, and social link editors. Added a hero video, an introductory overlay, theme switching, and scroll animations.

ProfMedMax - Medical Clinic Website

React, TypeScript, Vite, Tailwind CSS, Radix UI, i18next, Axios, Lottie, Recharts

profmedmax.uz

- Developed a medical clinic website showcasing doctors, departments, and services, with an online appointment request workflow.
- Implemented localization in English, Russian, Uzbek, Chinese, and Arabic, including right-to-left layouts. Built reusable UI components, service search, FAQs, reviews, statistics, and Lottie animations.
- Integrated REST APIs through Axios for doctor profiles, service categories, appointment requests, and contact information.

EFOOD - Food Manufacturer Website & Admin CMS (Soft Service)

Next.js 16, PostgreSQL

efood.uz

- Rebuilt Euro Food Trade’s website with Uzbek, Russian, and English support, a filterable product catalog, detailed product specifications, responsive layouts, and reduced-motion support.
- Developed an admin CMS for products, categories, news, certifications, contact details, and applications; integrated Telegram notifications for incoming inquiries and job applications.
- Implemented page metadata, structured data, and sitemap generation; converted 170 images to WebP, reducing the total image asset size from 76 MB to 11 MB. Recorded PageSpeed Insights scores of 96 for performance and 100 for accessibility, best practices, and SEO.

ADDITIONAL INFORMATION

Languages: English, Russian, Uzbek
Certifications: React: Accessibility; JavaScript: Async
